

Chocolate Sauce Rubric

Higher levels of performance

Wt.	Task	Best	Good	Needs Improvement
15%	Contribute to effective teamwork	I worked well with my teammates and stayed focused on our assignment. I helped divide the tasks for the activity and I did my part.	I worked with my teammates to divide the tasks for the activity.	I did most of the work on my team, or I did not do enough work on my team, or I was off task during the teamwork.
40%	Describe energy changes and flow	I accurately described the energy flow and changes into, out of, and within the system. I accurately used the particle model in my explanations. I clearly and accurately communicated my understanding of temperature, heat, thermal energy, conduction, convection, and energy during phase changes.	I accurately described the energy flow and changes within the system. I accurately used the particle model in my explanations. I clearly communicated my understanding of 5 of the 6 ideas listed.	I did not describe energy flow accurately. I did not describe energy into or out of the system. I did not use the particle model accurately or did not use it at all. I did not communicate my understanding of the main ideas from this chapter.
15%	Describe systems	I drew a detailed sketch of the system with all the parts labeled. I accurately described the system and explained why it is a system.	I drew a detailed sketch of the system with labels. I accurately described the system.	I did not include important parts of the system in my sketch and I did not label the parts accurately. I did not describe the system or explain why it is a system.
15%	Offer useful feedback	I offered at least 3 helpful suggestions to my teammates. I gave valuable feedback on our teamwork.	I offered 2 helpful suggestions to my teammates. I gave valuable feedback on our teamwork.	I did not provide any comments to my partner, or my comments were too general or negative to be helpful.
15%	Use revisions to improve my work	I showed how much I have learned by revising my ideas about energy. I used the feedback from my teammates and teacher to revise my work and make it better.	I revised my work.	I did not consider any feedback to make revisions.
